

Dear Sir or Madam,

new introduced firmware0174 for CC/RC 9060 comprehend following improvements:

- selected ringtone in mobile phone will be used as ringtone in CC 9060.
(this function is addicted on type of mobile phone)
menu: Settings/Audio/Ringtones/Mobile(activate)
- On-call duty /Ignition switch off-timer
menu: Settings/Device/On-call duty/Active: 5 Min.; 10 Min.; 15 Min.;
- 2 new colour themes: orange + yellow
menu: Settings/Display/Colour Theme/...
- Startscreen (BURY-Logo) still be kept after Softwareupdate.
- Additional icon in Phonenumber, indicates the profile in which phone was connected formerly:
HF-profile or A2DP-profile
men: Settings/Bluetooth/Phonenumber
- Several improvements in Prompts and Voice Prompts
(in different languages).
- Especially in "Russian" prompts and voice prompts had been optimized.
- Download eMail: now eMail with max. 2.000 digits will be shown/read out
(formerly only 700 digits incl. "subject").
- Download eMails: now max. 30 eMails will be downloaded
(formerly only 10 eMails / first in - first out).
- In „UK-english“ besides "Help"-command also "What can I say" is again possible to use.
